Internships

CodeTech IT Solutions, Hyderabad (Remote) Machine Learning Intern	Feb 2026 – May 2026
• Completed a 3-month internship focused on Machine Learning concepts and model development. • Worked on data preprocessing, model building, and evaluation techniques. • Gained hands-on experience with real-world ML workflows and problem-solving.	
CodeTech IT Solutions, Hyderabad (Remote) Front-End Development Intern	Mar 2025 – Apr 2025
• Built responsive web interfaces using HTML, CSS, and JavaScript. • Integrated frontend components with REST APIs. • Worked with Git-based workflows and version control.	

Projects

AI-Assisted Early Disease Screening & Diagnostic Support System	March, 2026
• Built an AI-driven system for early disease screening using medical imaging and biomarker data. • Enabled disease-specific model selection to prevent incorrect diagnosis.	
Sign Language to Text and Voice Conversion System(Major Project)	February, 2026
• Developed an AI-based system to convert sign language gestures into text and synthesized voice. • Implemented real-time gesture recognition using computer vision techniques.	
Eye Brightness and Volume Control using Facial Gesture Recognition(Minor Project)	August, 2025
• Developed a real-time system to control screen brightness and system volume using eye blinks and facial gestures. • Utilized MediaPipe FaceMesh and Hand Tracking models for gesture detection.
