Hyderabad, Telangana kaparthysathwik123@gmail.com +91 8790609762 [LinkedIn](#) [GitHub](#) [Portfolio](#)

Summary

Computer Science (AI & ML) student with experience in Machine Learning, Computer Vision, and Software Development through internship and academic projects. Skilled in developing AI-powered solutions using Python, Java, FastAPI, React, TensorFlow, PyTorch, and OpenCV. Built intelligent systems including Sign Language to Text and Voice Conversion and AI-Assisted Disease Screening. AWS Certified Cloud Practitioner with strong problem-solving skills and hands-on experience in real-world AI applications.

Education

Institute of Aeronautical Engineering, Hyderabad Sept 2023 – May 2027
B.Tech in Computer Science and Engineering (AI & ML)

- Current CGPA: 7.43/10.0

Intermediate (MPC) Mar 2023
Sri Chaitanya JR. College, Kukatpally, Hyderabad

- Percentage: 64.10%

Schooling(SSC) May 2021
Sri Chaitanya Techno School, Kukatpally, Hyderabad

- Percentage: 100%

Technical Skills

Languages: Java, Python

Frameworks & Web: JavaScript, FastAPI, Flask, Node.js, React.js, Streamlit, HTML, CSS, RESTful APIs

AI / ML: Machine Learning, Computer Vision, PyTorch, TensorFlow, Scikit-learn, OpenCV, Vision Transformers (ViT)

Databases & Cloud: MySQL, Vercel, Render

Tools & DevOps: Git, GitHub, Postman, IntelliJ IDEA

Internships

CodeTech IT Solutions, Hyderabad (Remote) Feb 2026 – May 2026
Machine Learning Intern

- Completed a 3-month internship focused on Machine Learning concepts and model development.
- Worked on data preprocessing, model building, and evaluation techniques.
- Gained hands-on experience with real-world ML workflows and problem-solving.

Projects

AI-Assisted Early Disease Screening & Diagnostic Support System [GitHub](#) Mar 2026 – Present

- Built an AI-driven system for early disease screening using medical imaging and biomarker data.
- Enabled disease-specific model selection to prevent incorrect diagnosis.
- Applied Machine Learning techniques for disease prediction and analysis.

Sign Language to Text and Voice Conversion System [GitHub](#) Feb 2026 – Present

- Developed an AI-based system to convert sign language gestures into text and synthesized voice.
- Implemented real-time gesture recognition using computer vision techniques.
- Enhanced communication accessibility for hearing and speech-impaired individuals.

Face Authentication System [GitHub](#) Aug 2025 – Present

- Developed a facial authentication system for secure user verification.
- Utilized computer vision and face recognition techniques for identity validation.
- Improved authentication accuracy through real-time face detection and recognition.

Certifications

- Artificial Intelligence Fundamentals – IBM SkillsBuild Apr 2026
- AI Ethics – IBM SkillsBuild Apr 2026
- Introduction to Artificial Intelligence – IBM SkillsBuild Oct 2025
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle Sep 2025
- AWS Partner: Migrating Generative AI Applications to AWS – AWS Jul 2025

Achievements

- Solved 100+ coding problems across LeetCode, GeeksforGeeks, and HackerRank.
- Earned Silver Badges in Java and Python on HackerRank.
- Completed internship in Machine Learning, gaining hands-on industry experience.
- Built and deployed AI-powered projects in Computer Vision and Machine Learning domains.

Coding Profiles

- [LeetCode](#) – 100+ Problems Solved
- [GeeksforGeeks](#) – 100+ Problems Solved
- [HackerRank](#) – Java & Python (Silver Badge)
